

Irene

The Last

Age: 25

City/town/village: Madrid

Studies: Social Educator, Master in International Solidarity Action and Social Inclusion

Hobbies: Outdoor Sports and yoga

Lived/worked: Manchester (UK), Lake district (UK) and Madrid.

Tell us about you

Hi! I am a social educator and have been a girl scout since I was a child. Not so long ago I came back from an abroad adventure and I am so passionate about wildlife that any time I can, I run away from the big city so that I can breathe pure air.

I like: summertime, meeting new people and dogs.

I dislike: injustices and to be fooled.

My favourite food is: any, except beans.

What's your English background

I have always studied English throughout all my life. A couple of years ago, I lived and worked in the UK and that made me realize how rich the accents this land has as well as the difficulty in understanding dialects such as the cumbrian or the manxian itself... I couldn't choose which is my favorite! so then, after this odyssey I came back to Madrid and I got a well deserved C1 grade in English.

Your summer camp goal

My aim is to take care of the little ones and make sure they enjoy this experience in nature as much as they use English having a great time.

Why nature?

Because is where we come from and for that, learning to take care and enjoy nature is a sensibility which is to be taught in our way to be better people.

Why working with children?

Because they are pure intuition, creativity and energy. They will be the adults of the future thus they are the key for the transformation of the world we inhabit into a better place.
