

Lola

The Apprentice

Age: 19

City/town/village: Madrid

Studies: Sociology (first year)

Hobbies: Music all day everyday and being close to the sea. Any kind of art.

Lived/worked: I was born in Madrid but I had the chance to visit so many beautiful cities. Also, I went to Tennessee, EE.UU as an exchange student for a year.

Tell us about you

I love being surrounded by nature and animals. I've got a really big family with children and adults of all ages, I grew up playing with them and taking care of the little ones. I want to travel the world and experience all the adventures I possibly can.

I like: laughing, enjoying the little things and pistachio ice cream

I dislike: any kind of offense and seafood

My favourite food is: ice cream with fries

What's your English background

I've lived in EE.UU for a year and I have friends all around the world. I've been in contact with this language since I was a kid and I learned it at school too. Travelling, I realized that thanks to speaking it I've learned and experienced things that I could have missed without it.

Your summer camp goal

This year I'm just an apprentice but my goal is to transform myself into a wonderful camp monitor. I've been to summer camps since really little and I think it is an essential opportunity to learn and grow with others. It's a unique experience!

Why nature?

It's what brings life. We have to learn to take care of it, doing so, we will discover things we never dreamed of.

Why working with children?

They live a completely different view of the world, soaking up everything they like. Always playful, their energy is contagious.
