

Monica

The nature lover mummy

Age: 32

City/Town/village: Boo de Piélagos - Cantabria

Studies: Pre-Primary Teaching & Psychomotricity.

Hobbies: Travelling, animals, roller derby, snowboarding and sailing.

Lived/worked: UK, France, USA, Australia and Democratic Republic of Congo.

Tell us about you

I'm an enthusiastic teacher with a passion for my job and helping others. My curiosity allowed me to get involved in different educational tendencies and innovative projects. Travelling has made me grow a lot and become the person who I am now.

NewPa is like my baby and I've put a lot of love and effort into its creation.

I like: Trying new sports, practical things, spending time in nature, helping animals and catching up with my friends.

I dislike: inefficiency and irresponsibility.

What's your English background

I loved English since I was little although my teacher didn't have much faith in me. After my first summer studying in the UK, I proved myself to be a fast learner and continued learning ever since.

Working at summer camps as a counselor in the USA and living in Australia for a year allowed me to perfect my bilingualism, becoming a Cambridge Oral Examiner when I returned to Spain.

Your summer camp goal:

Make sure that everything runs nice and smoothly for all the children that are to come and enjoy an amazing summer at the NewPa project on its debut and be the link between families and Camp.

Why nature? I have always been very connected to it and I think it is really necessary for children to see first hand the incredible resources it's got to offer us and the importance of looking after them.

Why working with children? It was a decision between veterinary and teaching. I had my mother as a role model and quite early on decided to dedicate my life to educating children as I really believe in them as the power of change.
